

Kentucky Interfaith Power & Light

Our mission is to protect God's creation by mobilizing a religious response to climate change through conservation, efficiency and alternative energy.

We can help you to reduce your carbon footprint. We ask you to mobilize a religious response to climate change in your community or other faith communities.

The Covenant

I agree to partner with Kentucky Interfaith Power and Light in protecting God's creation. I have already done or agree to do at least one of the following (please check one or more):

- Conduct an **energy audit** of my home to identify sources of energy waste and the potential financial savings of energy related improvements. (See back)
- Make **energy efficiency** improvements to my home. (See back)
- Utilize **renewable energy** by purchasing green power, installing solar panels, or contributing to the KIPL Solar Energy Project Fund. (See back)
- Analyze, reduce, and offset my greenhouse gas emissions with the goal of becoming **non-polluting**. (See back)
- Support **public policies** that contribute to our goals. (See back)
- Make an **annual financial contribution** to Kentucky Interfaith Power and Light. (See back)

Kentucky Interfaith Power & Light (KIPL) pledges to work with you to help you follow through on your covenant. We will provide you with the resources to: conduct an energy audit, become more efficient, install alternative energy, contribute to the Solar Energy Project Fund, become non-polluting and support public policies that contribute to our goals.

Signature of KIPL representative _____

Energy Audits

We can provide you with a list of organizations that will conduct an energy audit of your home for you. They can identify sources of energy waste and will help you calculate the potential financial savings of energy related improvements.

Energy Efficiency Improvements

We can provide you with the names of organizations that can make energy efficiency improvements to your home. We will connect you to others who have already made the changes to tell you how they did it.

Renewable Energy

We can provide you with a list of ways to purchasing green power or the names of organizations in the area that can install solar panels or wind turbines. If you decide to, we have a Solar Energy Project Fund that allows people to pool their money and install alternative energy at a local place of worship or school.

Non-polluting

The ultimate in climate change action is attained when you analyze, reduce, and offset our greenhouse gas emissions with the goal of becoming non-polluting. We can tell you how to become non-polluting and assist you in implementing a plan.

Public Policies

We will keep you informed when issues related to climate change come before government bodies so that you can rally grass roots support among your members. We do not hire lobbyists or lobby government officials directly. We are not affiliated with any political party and do not support any candidates running for office.

Financial Contribution

Those that have the means can make an annual financial contribution to Kentucky Interfaith Power and Light so that we can better protect God's creation. We hope that most members will want to contribute to us on an annual basis so that we can continue to mobilize religious communities and individuals throughout the state.
